

# Mailing Lists For Penetration Testers

---

 [pentestlab.blog/category/general-lab-notes/page/12](http://pentestlab.blog/category/general-lab-notes/page/12)

September 23, 2012

Every penetration tester must be up to date on a daily basis about the newest vulnerabilities, pen test techniques, exploits and threats. This will allow him to secure better the infrastructure of his clients by identifying immediately the high risks when conducting vulnerability assessments and penetration tests. A good way for staying up to date is to subscribe to some related info sec mailing lists. Below you can find a list with the most popular mailing lists:

## **BugTraq**

<http://www.securityfocus.com/archive/1>

## **Metasploit**

<http://mail.metasploit.com/pipermail/framework/>

## **Penetration Testing**

<http://www.securityfocus.com/archive/101>

## **Nessus**

<https://discussions.nessus.org/index.jspa>

## **Nmap Hackers**

<http://seclists.org/nmap-hackers/>

## **Web Application Security**

<http://www.securityfocus.com/archive/107>

## **Honeypots**

<http://www.securityfocus.com/archive/119>

## **Full Disclosure**

<http://seclists.org/fulldisclosure/>

## **PaulDotCom**

<http://mail.pauldotcom.com/pipermail/pauldotcom/>

## **Web Security**
