

VoIP Default Password List

In a previous [post](#) I have shared a list of a specific attacks that can be executed in every VoIP engagement. The list contained also Testing for Default Credentials (VoIP-009) so the following table with common credentials for various VoIP devices has been created to assist with this specific type of test.

Vendor	VoIP Device	Username	Password
Acme	Packet 4600	admin	packet
Alcatel	4400 PBX	kermit	kermit
Asterisk	AsteriskNow	Admin	admin
Avaya	IP Office 500	Administrator	Administrator
